SUBJECT and TITLE INDEX

POLYMER ENGINEERING AND SCIENCE
VOLUME 11
1971

A

1. ABS

A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*

An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353.*

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

2. Accelerators

Room Temperature Curing of Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*

3. Acetal

Force Requirements in Forging of Crystalline Polymers, K. F. Wissbrun, *January, p. 28*

A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*

4. Activation Energy

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

5. Aluminum

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

6. Antioxidants

Factors Influencing the Thermal Oxidation of Polyethylene, W. L. Hawkins, M. G. Chan and G. L. Link, *September, p. 377*

B

7. Boron

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

C

8. Carbon Black

Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

9. Carbon Fiber

Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*

10. Catalysis

The Interaction of Alkoxy Silane Coupling Agents with Silica Surfaces, R. L. Kaas and J. L. Kardos, *January, p. 11*

Mathematics of Linear-Temperature Programmed, First Order Kinetics in Peroxide Catalyzed Polymerizations, P. E. Willard, M. Alvarez and L. C. Cha, *March, p. 160*

Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*

11. Cobalt Complexes

Room Temperature Curing if Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*

12. Cold Forming

Cold Forming of Plastics. Part I. Draw Forming of Thermoplastic Sheets, H. L. Li, P. Koch, D. C. Prevorsek and H. J. Oswald, *March, p. 99*

Cold forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

13. Composite

Strength Properties of Discontinuous Fiber Composites, P. E. Chen, *January, p. 51*

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*

Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*

Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*

Viscoelastic Stresses in a Composite System, R. M. Hackett, *May, p. 220*

The Mechanical Performance of Cross-Plied Composites, R. E. Lavengood and O. Ishai, *May, p. 226*

Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

14. Conduction

Temperature Profiles for Polymer Melts in Tube Flow. Part II. Conduction and Shear Heating Corrections, H. T. Kim and E. A. Collins, *March, p. 83*

15. Coupling Agents

The Interaction of Alkoxy Silane Coupling Agents with Silica Surfaces, R. L. Kaas and J. L. Kardos, *January, p. 11*

16. Cracking

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*

17. Creep

Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*

A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*

18. Crystallization

Crystallization Studies on Deformed Polybutene-1 Melts, A. Wereta, Jr. and C. G. Gogos, *January, p. 19*

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*

Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*

Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*

19. Curing

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

Room Temperature Curing of Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*

POLYMER ENGINEERING AND SCIENCE
VOLUME 11
1971

A

1. ABS

A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*

An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353.*

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

2. Accelerators

Room Temperature Curing of Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*

3. Acetal

Force Requirements in Forging of Crystalline Polymers, K. F. Wissbrun, *January, p. 28*

A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*

4. Activation Energy

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

5. Aluminum

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

6. Antioxidants

Factors Influencing the Thermal Oxidation of Polyethylene, W. L. Hawkins, M. G. Chan and G. L. Link, *September, p. 377*

B

7. Boron

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

C

8. Carbon Black

Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

9. Carbon Fiber

Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*

10. Catalysis

The Interaction of Alkoxy Silane Coupling Agents with Silica Surfaces, R. L. Kaas and J. L. Kardos, *January, p. 11*

Mathematics of Linear-Temperature Programmed, First Order Kinetics in Peroxide Catalyzed Polymerizations, P. E. Willard, M. Alvarez and L. C. Cha, *March, p. 160*

Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*

11. Cobalt Complexes

Room Temperature Curing if Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*

12. Cold Forming

Cold Forming of Plastics. Part I. Draw Forming of Thermoplastic Sheets, H. L. Li, P. Koch, D. C. Prevorsek and H. J. Oswald, *March, p. 99*

Cold forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

13. Composite

Strength Properties of Discontinuous Fiber Composites, P. E. Chen, *January, p. 51*

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*

Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*

Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*

Viscoelastic Stresses in a Composite System, R. M. Hackett, *May, p. 220*

The Mechanical Performance of Cross-Plied Composites, R. E. Lavengood and O. Ishai, *May, p. 226*

Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

14. Conduction

Temperature Profiles for Polymer Melts in Tube Flow. Part II. Conduction and Shear Heating Corrections, H. T. Kim and E. A. Collins, *March, p. 83*

15. Coupling Agents

The Interaction of Alkoxy Silane Coupling Agents with Silica Surfaces, R. L. Kaas and J. L. Kardos, *January, p. 11*

16. Cracking

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*

17. Creep

Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*

A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*

18. Crystallization

Crystallization Studies on Deformed Polybutene-1 Melts, A. Wereta, Jr. and C. G. Gogos, *January, p. 19*

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*

Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*

Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*

19. Curing

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

Room Temperature Curing of Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*

D

20. Deformation

Force Requirements in Forging of Crystalline Polymers, K. F. Wissbrun, *January, p. 28*

21. Density

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

22. Design

Some Melt Flow and Mechanical Design Aspects of Large Extruders, R. T. Fenner and J. G. Williams, *November, p. 474*

23. Dielectric Heating

Differential Thermal Analysis Using High Frequency Dielectric Heating I. Theory and Equipment, S. A. Wald and C. C. Winding, *January, p. 57*

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

Differential Thermal Analysis Using High Frequency Dielectric Heating III. A Mathematical Model for Predicting Radial Temperature Gradients in the Dielectric Heating of Polymers, S. A. Wald and C. C. Winding, *January, p. 70*

24. Differential Thermal Analysis

Differential Thermal Analysis Using High Frequency Dielectric Heating I. Theory and Equipment, S. A. Wald and C. C. Winding, *January, p. 57*

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

Differential Thermal Analysis Using High Frequency Dielectric Heating III. A Mathematical Model for Predicting Radial Temperature Gradients in the Dielectric Heating of Polymers, S. A. Wald and C. C. Winding, *January, p. 70*

25. Diffusion

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*

Gas Separation with Porous Anisotropic Polymer Films, D. F. Bradley and R. W. Baker, *July, p. 284*

E

26. Elasticity

The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, p. 205*

The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

Influence of Reservoir Diameter on the Melt Elasticity in Capillary Flow, C. D. Han and K. U. Kim, *September, p. 395*

27. Elastomer

Differential Thermal Analysis Using High Frequency Dielectric Heating I. Theory and Equipment, S. A. Wald and C. C. Winding, *January, p. 57*

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*

Differential Thermal Analysis Using High Frequency Dielectric Heating III. A Mathematical Model for Predicting Radial Temperature Gradients in the Dielectric Heating of Polymers, S. A. Wald and C. C. Winding, *January, p. 70*

Certain Effects of Melt-Shearing and Cooling on the Stress-Strain Behavior of Thermoplastic Elastomers, J.-M. Charrier and R. J. P. Ranchoux, *September, p. 381*

28. Electrical Properties

Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

29. Enthalpy Changes

Differential Thermal Analysis Using High Frequency Dielectric Heating I. Theory and Equipment, S. A. Wald and C. C. Winding, *January, p. 57*

30. Epoxy

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*

The Mechanical Performance of Cross-Plied Composites, R. E. Lavengood and O. Ishai, *May, p. 226*

Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

31. Etching

Vibration Etching, a Method of Evaluation of Photoresist Characteristics, G. Kolf and W. Laessig, *November, p. 492*

32. Ethylene-Propylene Copolymer

Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

33. Extruder

Plasticating Single-Screw Extrusion Theory, C. I. Chung, *March, p. 93*

A Theoretical Melting Model for Plasticating Extruders, R. C. Donovan, *May, p. 247*

Some Melt Flow and Mechanical Design Aspects of Large Extruders, R. T. Fenner and J. C. Williams, *November, p. 474*

Pressure Profiles in Plasticating Extruders, R. C. Donovan, *November, p. 484*

34. Extrusion

Plasticating Single-Screw Extrusion Theory, C. I. Chung, *March, p. 93*

Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*

Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

F

35. Fiber

Strength Properties of Discontinuous Fiber Composites, P. E. Chen, *January, p. 51*

The Mechanical Properties of Textile Materials as Influenced by Complexity and Rate of Testing, F. Figucia, L. Weiner, and R. Laible, *July, p. 289*

Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*

Extensional Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*

Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

36. Filler

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*

Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*

37. Film

Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*

The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*

Gas Separation with Porous Anisotropic Polymer Films, D. F. Bradley and R. W. Baker, *July, p. 284*

Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

Unstable Flow of Amorphous Polymers Through Capillaries. I. Velocity Profiles of Polymer Having Discontinuous Flow Curve, O. Bartos and J. Holomek, *July, p. 324*

Holographic Grating Formation in Photopolymers-Polymethylmethacrylate, F. P. Laming, *September, p. 421*

Thermally Stable Photoresist Polymer, R. E. Kerwin and M. R. Goldrick, *September, p. 426*
Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

38. Flexural Properties

Cold Forming Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

39. Flow

Lower Newtonian Viscosities of Polystyrene, K. K. Chee and A. Rudin, *January, p. 35*
Prediction of High Density Polyethylene Processing Behavior from Rheological Measurements, M. Shida and L. V. Cancio, *March, p. 124*
Correlation Between Steady State Flow Curve and Molecular Weight Distribution for Polyethylene Melts, R. N. Shroff and M. Shida, *May, p. 200*
Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*
Uniformity of Flow from Sheeting Dies, J. M. McKelvey and K. Ito, *May, p. 258*
Unstable Flow of Amorphous Polymers Through Capillaries. I. Velocity Profiles of Polymer Having Discontinuous Flow Curve, O. Bartos and J. Holomek, *July, p. 324*
A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*
Influence of Reservoir Diameter in the Melt Elasticity in Capillary Flow, C. D. Han and K. U. Kim, *September, p. 395*
Heat Transfer to Polymer Solutions and Melts Flowing Between Parallel Plates, W. H. Suckow, P. Hrycak and R. G. Griskey, *September, p. 401*
Extensional Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*
Some Observations on the Flow Behavior of Polyvinyl Chloride Melts, E. A. Collins and A. P. Metzger, *November, p. 446*
Pressure Profiles in Plasticating Extruders, R. C. Donovan, *November, p. 484*

40. Force

Force Requirements in Forging of Crystalline Polymers, K. F. Wissbrun, *January, p. 28*

41. Fractionation

Physico-Chemical Characterization of Poly(Vinyl Chloride). I. Solution Properties, M. D. Baijal and K. M. Kauppila, *May, p. 182*

G

42. Gel Permeation Chromatography

Characterization of Polyvinyl Chloride: Part I. Molecular Weight Determinations by Gel Permeation Chromatography, R. K. S. Chan, *March, p. 152*
Physico-Chemical Characterization of Poly(Vinyl Chloride). I. Solution Properties, M. D. Baijal and K. M. Kauppila, *May, p. 182*
Characterization of Polyvinyl Chloride. Part II. The Unperturbed End to End Distance Values Obtained from a New GPC Method and Viscometry, R. K. S. Chan, *May, p. 187*

43. Glass Beads

Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*
Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*

44. Glass Fiber

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*
Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*
Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*
The Mechanical Properties of Textile Materials as Influenced by Complexity and Rate of Testing, F. Figucia, L. Weiner, and R. Laible, *July, p. 289*

45. Graft Copolymers

Graft Copolymers Prepared by Anionic Techniques—A Review, J. Heller, *January, p. 6*

46. Graphite

Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

H

47. Heat Transfer

Heat Transfer to Polymer Solutions and Melts Flowing Between Parallel Plates, W. H. Suckow, P. Hrycak and R. G. Griskey, *September, p. 401*

48. Holography

Application of Holographic Interference Technique to Mechanical Studies of Polymeric Solids, S. Matsuoka, V. T. Wallder, and H. L. Beauchamp, *January, p. 46*
Holographic Grating Formation in Photopolymers-Polymethylmethacrylate, F. P. Laming, *September, p. 421*

I

49. Impact Strength

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

50. Instrumentation

The Interaction of Alkoxy Silane Coupling Agents with Silica Surfaces, R. L. Kaas and J. L. Kardos, *January, p. 11*
Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

K

51. Kinetics

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*
Mathematics of Linear-Temperature Programmed, First Order Kinetics in Peroxide Catalyzed Polymerizations, P. E. Willard, M. Alvarez and L. C. Cha, *March, p. 160*
Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*
The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*

L

52. Laminate

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*
The Mechanical Performance of Cross-Plied Composites, R. E. Lavengood and O. Ishai, *May, p. 226*

53. Laser

Application of Holographic Interference Technique to Mechanical Studies of Polymeric Solids, S. Matsuoka, V. T. Wallder, and H. L. Beauchamp, *January, p. 46*
Ultraviolet Sources for Photochemical Application, A. N. Wright, *September, p. 416*

54. Liquid

Free Volume of Liquids and Polymers from Internal Pressure Studies, E. B. Bagley and J. M. Scigliano, *May, p. 177*

M

55. Mathematical Model

Differential Thermal Analysis Using High Frequency Dielectric Heating. III. A Mathematical Model for Predicting Radial Temperature Gradients in the Dielectric Heating of Polymers, S. A. Wald and C. C. Winding, *January, p. 70*
Mathematics of Linear-Temperature Programmed, First Order Kinetics in Peroxide Catalyzed Polymerizations, P. E. Willard, M. Alvarez and L. C. Cha, *March, p. 160*

Viscoelastic Stresses in a Composite System, R. M. Hackett, *May, p. 220*

56. Mechanical Properties

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*
The Mechanical Performance of Cross-Plied Composites, R. E. Lavengood and O. Ishai, *May, p. 226*
The Mechanical Properties of Textile Materials as Influenced by Complexity and Rate of Testing, F. Figucia, L. Weiner, and R. Laible, *July, p. 289*
Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*
Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*
Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*

57. Melt Fracture

Melt Fracture of Polystyrene, J. Vlachopoulos and S. Lidorikis, *January, p. 1*
Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*
A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*

58. Melting

Temperature Profiles for Polymer Melts in Tube Flow. Part II. Conduction and Shear Heating Corrections, H. T. Kim and E. A. Collins, *March, p. 83*
Plasticating Single-Screw Extrusion Theory, C. I. Chung, *March, p. 93*
Correlation Between Steady State Flow Curve and Molecular Weight Distribution for Polyethylene Melts, R. N. Shroff and M. Shida, *May, p. 200*
The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, p. 205*
A Theoretical Melting Model for Plasticating Extruders, R. C. Donovan, *May, p. 247*
An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353*
A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*
Influence of Reservoir Diameter on the Melt Elasticity in Capillary Flow, C. D. Han and K. U. Kim, *September, p. 395*
Heat Transfer to Polymer Solutions and Melts Flowing Between Parallel Plates, W. H. Suckow, P. Hrycak and R. G. Griskey, *September, p. 401*
Some Observations on the Flow Behavior of Polyvinyl Chloride Melts, E. A. Collins and A. P. Metzger, *November, p. 446*
Some Melt Flow and Mechanical Design Aspects of Large Extruders, R. T. Fenner and J. G. Williams, *Noember, p. 474*
Pressure Profiles in Plasticating Extruders, R. C. Donovan, *November, p. 484*

59. Melt-Shearing

Certain Effects of Melt-Shearing and Cooling on the Stress-Strain Behavior of Thermoplastic Elastomers, J.-M. Charrier and R. J. P. Ranchoux, *September, p. 381*

60. Membrane

Gas Separation with Porous Anisotropic Polymer Films, D. F. Bradley and R. W. Baker, *July, p. 284*

61. Modulus

Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*

62. Molding

An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353*
A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*
Certain Effects of Melt-Shearing and Cooling on the Stress-Strain Behavior of Thermoplastic Elastomers, J.-M. Charrier and R. J. P. Ranchoux, *September, p. 381*
Extensional Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*
Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*
Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*
Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

63. Molecular Weight

Melt Fracture of Polystyrene, J. Vlachopoulos and S. Lidorikis, *January, p. 1*
On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*
Characterization of Polyvinyl Chloride: Part I. Molecular Weight Determinations by Gel Permeation Chromatography, R. K. S. Chan, *March, p. 152*
Physico-Chemical Characterization of Poly(Vinyl Chloride). I. Solution Properties, M. D. Baijal and K. M. Kauppila, *May, p. 182*
Characterization of Polyvinyl Chloride. Part II. The Unperturbed End to End Distance Values Obtained from a New GPC Method and Viscometry, R. K. S. Chan, *May, p. 187*
Correlation Between Steady State Flow Curve and Molecular Weight Distribution for Polyethylene Melts, R. N. Shroff and M. Shida, *May, p. 200*
The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*
The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*
Some Observations on the Flow Behavior of Polyvinyl Chloride Melts, E. A. Collins and A. P. Metzger, *November, p. 446*

64. Morphology

Crystallization Studies on Deformed Polybutene-1 Melts, A. Wereta, Jr. and C. G. Gogos, *January, p. 19*
Certain Effects of Melt-Shearing and Cooling on the Stress-Strain Behavior of Thermoplastic Elastomers, J.-M. Charrier and R. J. P. Ranchoux, *September, p. 381*
Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*

N

65. Nylon

The Mechanical Properties of Textile Materials as Influenced by Complexity and Rate of Testing, F. Figucia, L. Weiner, and R. Laible, *July, p. 289*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H.Ll. D. Pugh, E. F. Chandler, L. Holliday, and J. Mann, *November, p. 463*

O

66. Orientation

The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*

67. Oxidation

Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*
Factors Influencing the Thermal Oxidation of Polyethylene, W. L. Hawkins, M. G. Chan and G. L. Link, *September, p. 377*

P

68. n-Pentane

The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*

69. Permeability

Gas Separation with Porous Anisotropic Polymer Films, D. F. Bradley and R. W. Baker, *July, p. 284*

70. Photoresist Characteristics

Thermally Stable Photoresist Polymer, R. E. Kerwin and M. R. Goldrick, *September, p. 426*

Vibration Etching, a Method of Evaluation of Photoresist Characteristics, G. Kolf and W. Laessig, *November, p. 492*

71. Photopolymerization

Prospective Photosensitization of Photopolymerization Systems, J. J. Bulloff, *September, p. 405*
Ultraviolet Sources for Photochemical Application, A. N. Wright, *September, p. 416*
Holographic Grating Formation in Photopolymers-Polymethylmethacrylate, F. P. Laming, *September, p. 421*

72. Physical Properties

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*
Correlation Between Steady State Flow Curve and Molecular Weight Distribution for Polyethylene Melts, R. N. Shroff and M. Shida, *May, p. 200*
The Polymer-Forming Reactions of 3,3,3-Trichloropropylene Oxide, H. C. Vogt and P. Davis, *July, p. 312*
A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*
Thermally Stable Photoresist Polymer, R. E. Kerwin and M. R. Goldrick, *September, p. 426*
Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*
Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

73. Plasticating

Plasticating Single-Screw Extrusion Theory, C. I. Chung, *March, p. 93*
A Theoretical Melting Model for Plasticating Extruders, R. C. Donovan, *May, p. 247*
An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353*

74. Polybutadiene

Unstable Flow of Amorphous Polymers Through Capillaries. I. Velocity Profiles of Polymer Having Discontinuous Flow Curve, O. Bartos and J. Holomek, *July, p. 324*

75. Polybutene

Crystallization Studies on Deformed Polybutene-1 Melts, A. Wereta, Jr. and C. G. Gogos, *January, p. 19*
Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*

76. Polycarbonate

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*
Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

77. Polyester

Room Temperature Curing of Unsaturated Polyesters with Cobalt (II) Complexes, C. H. Stapfer and R. W. D'Andrea, *May, p. 233*
Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*

78. Polyether

Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*
Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*

79. Polyethylene

Force Requirements in Forging of Crystalline Polymers, K. F. Wissbrun, *January, p. 28*
Prediction of High Density Polyethylene Processing Behavior from Rheological Measurements, M. Shida and L. V. Cancio, *March, p. 124*
Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*
Correlation Between Steady State Flow Curve and Molecular Weight Distribution for Polyethylene Melts, R. N. Shroff and M. Shida, *May, p. 200*
The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, p. 205*
Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*
A Theoretical Melting Model for Plasticating Extruders, R. C. Donovan, *May, p. 247*
An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353*
A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*
Factors Influencing the Thermal Oxidation of Polyethylene, W. L. Hawkins, M. G. Chan and G. L. Link, *September, p. 377*
A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*
Influence of Reservoir Diameter on the Melt Elasticity in Capillary Flow, C. D. Han and K. U. Kim, *September, p. 395*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H. Ll. D. Pugh, E. F. Chandler, L. Holliday and J. Mann, *November, p. 463*
Pressure Profiles in Plasticating Extruders, R. D. Donovan, *November, p. 484*

80. Polyimide

Thermally Stable Photoresist Polymer, R. E. Kerwin and M. R. Goldrick, *September, p. 426*
Electrical Dissipation Factor: Guide to Molding Quality Graphite/Resin Composites, R. A. Pike, F. C. Douglas and G. R. Wisner, *November, p. 502*

81. Polyisobutylene

Measurements on the Biaxial Extension Viscosity of Bulk Polymers: The Inflation of a Thin Polymer Sheet, C. D. Denson and R. J. Gallo, *March, p. 174*

82. Polymerization

Graft Copolymers Prepared by Anionic Techniques—A Review, J. Heller, *January, p. 6*
Mathematics of Linear-Temperature Programmed, First Order Kinetics in Peroxide Catalyzed Polymerizations, P. E. Willard, M. Alvarez and L. C. Cha, *March, p. 160*
The Polymer-Forming Reactions of 3,3,3-Trichloropropylene Oxide, H. C. Vogt and P. Davis, *July, p. 312*

83. Polymethylmethacrylate

Holographic Grating Formation in Photopolymers-Polymethylmethacrylate, F. P. Laming, *September, p. 421*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H. Ll. D. Pugh, E. F. Chandler, L. Holliday and J. Mann, *November, p. 463*
A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*
Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*

84. Polypeptide

The Mechanical Properties of Textile Materials as Influenced by Complexity and Rate of Testing, F. Figucia, L. Weiner and R. Laible, *July, p. 289*

85. Polyphenylene Oxide

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

86. Polypropylene

Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*
The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, p. 205*
Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*
A Theoretical Melting Model for Plasticating Extruders, R. C. Donovan, *May, p. 247*
Kinetics of Thermal Oxidation of Polyolefins—A Review, L. Reich, B. R. Jadrnicek, and S. S. Stivala, *July, p. 265*
The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*
A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*
Pressure Profiles in Plasticating Extruders, R. C. Donovan, *November, p. 484*

87. Polystyrene

Melt Fracture of Polystyrene, J. Vlachopoulos and S. Lidorikis, *January, p. 1*
Lower Newtonian Viscosities of Polystyrene, K. K. Chee and A. Rudin, *January, p. 35*
Physico-Chemical Characterization of Poly (Vinyl Chloride). I. Solution Properties, M. D. Baijal and K. M. Kauppila, *May, p. 182*
Characterization of Polyvinyl Chloride. Part II. The Unperturbed End to End Distance Values Obtained from a New GPC Method and Viscometry, R. K. S. Chan, *May, p. 187*
The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*
Internal Pressure Behavior of Polymers Above and Below the Glass Temperature, E. B. Bagley and J. M. Scigliano, *July, p. 320*
A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H. Ll. D. Pugh, E. F. Chandler, L. Holliday and J. Mann, *November, p. 463*

88. Polysulfone

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

89. Polyurethane

Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*

90. Polyvinyl Chloride

Characterization of Polyvinyl Chloride: Part I. Molecular Weight Determinations by Gel Permeation Chromatography, R. K. S. Chan, *March, p. 152*
Physico-Chemical Characterization of Poly(Vinyl Chloride). I. Solution Properties, M. D. Baijal and K. M. Kauppila, *May, p. 182*
Characterization of Polyvinyl Chloride. Part II. The Unperturbed End to End Distance Values Obtained from a New GPC Method and Viscometry, R. K. S. Chan, *May, p. 187*
An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353*
A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*
Some Observations on the Flow Behavior of Polyvinyl Chloride Melts, E. A. Collins and A. P. Metzger, *November, p. 446*
Pressure Profiles in Plasticating Extruders, R. C. Donovan, *November, p. 484*

91. Polyvinylidene Fluoride

Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

92. Pressure

Force Requirements in Forging of Crystalline Polymers, K. F. Wissbrun, *January, p. 28*
Free Volume of Liquids and Polymers from Internal Pressure Studies, E. B. Bagley and J. M. Scigliano, *May, p. 177*
The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, 205*
Internal Pressure Behavior of Polymers Above and Below the Glass Temperature, E. B. Bagley and J. M. Scigliano, *July, p. 320*
A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*
Influence of Reservoir Diameter on the Melt Elasticity in Capillary Flow, C. D. Han and K. U. Kim, *September, p. 395*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H. Ll. D. Pugh, E. F. Chandler, L. Holliday and J. Mann, *November, p. 463*
Pressure Profiles in Plasticating Extruders, R. C. Donovan, *November, p. 484*

93. Processing

Prediction of High Density Polyethylene Processing Behavior from Rheological Measurements, M. Shida and L. V. Cancio, *March, p. 124*
An Experimental Study of Plasticating in a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, D. E. Thomas and L. D. Leversen, *September, p. 353*
Extensional Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*

R

94. Rheology

Prediction of High Density Polyethylene Processing Behavior from Rheological Measurements, M. Shida and L. V. Cancio, *March, p. 124*
The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*
Extensional Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*

S

95. Shear Stress

Melt Fracture of Polystyrene, J. Vlachopoulos and S. Lidorikis, *January, p. 1*
Lower Newtonian Viscosities of Polystyrene, K. K. Chee and A. Rudin, *January, p. 35*
Temperature Profiles for Polymer Melts in Tube Flow. Part II. Conduction and Shear Heating Corrections, H. T. Kim and E. A. Collins, *March, p. 83*
Prediction of High Density Polyethylene Processing Behavior from Rheological Measurements, M. Shida and L. V. Cancio, *March, p. 124*
The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, p. 205*
Capillary Extrusion of Composite Materials, T. T. S. Lim, *May, p. 240*
The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*
Unstable Flow of Amorphous Polymers Through Capillaries I. Velocity Profiles of Polymer Having Discontinuous Flow Curve, O. Bartos and J. Holomek, *July, p. 324*
A Study of Polymer Melt Flow Instabilities in Extrusion, C. D. Han and R. R. Lamonte, *September, p. 385*
Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*

96. Sheet

Cold Forming of Plastics. Part I. Draw Forming of Thermoplastic Sheets, H. L. Li, P. Koch, D. C. Prevorsek and H. J. Oswald, *March, p. 99*
Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*
Measurements on the Biaxial Extension Viscosity of Bulk Polymers: The Inflation of a Thin Polymer Sheet, C. D. Denson and R. J. Gallo, *March, p. 174*

97. Sheeting Dies

Uniformity of Flow from Sheeting Dies, J. M. McKelvey and K. Ito, *May, p. 258*

98. Silica

The Interaction of Alkoxy Silane Coupling Agents with Silica Surfaces, R. L. Kaas and J. L. Kardos, *January, p. 11*

99. Solution Properties

Physico-Chemical Characterization of Poly(Vinyl Chloride). I. Solution Properties, M. D. Baijal and K. M. Kauppila, *May, p. 182*

100. Sorption Rate

The Effect of Molecular Weight and Orientation on the Sorption of n-Pentane by Glassy Polystyrene, B. R. Baird, H. B. Hopfenberg, and V. T. Stannett, *July, p. 274*

101. Stability

Factors Influencing the Thermal Oxidation of Polyethylene, W. L. Hawkins, M. G. Chan and G. L. Link, *September, p. 377*

102. Strength

Strength Properties of Discontinuous Fiber Composites, P. E. Chen, *January, p. 51*

103. Stress-Strain

Crystallization Studies on Deformed Polybutene-1 Melts, A. Wereta, Jr. and C. G. Gogos, *January, p. 19*

XUM

Application of Holographic Interference Technique to Mechanical Studies of Polymeric Solids, S. Matsuoka, V. T. Wallder, and H. L. Beauchamp, *January, p. 46*
On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*
The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*
Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*
Measurements on the Biaxial Extension Viscosity of Bulk Polymers: The Inflation of a Thin Polymer Sheet, C. D. Denson and R. J. Gallo, *March, p. 174*
Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*
Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*
Viscoelastic Stresses in a Composite System, R. M. Hackett, *May, p. 220*
A Comparison of Constant and Complex Creep Loading Programs for Several Thermoplastics, P. P. Benham and S. J. Hutchinson, *July, p. 335*
Certain Effects of Melt-Shearing and Cooling on the Stress-Strain Behavior of Thermoplastic Elastomers, J.-M. Charrier and R. J. P. Ranchoux, *September, p. 381*
Extensional Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H. Ll. D. Pugh, E. F. Chandler, L. Holliday and J. Mann, *November, p. 463*

104. Stress-Time

Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*

105. Styrene/Acrylonitrile

Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*

106. Synthesis

The Polymer-Forming Reactions of 3,3,3-Trichloropropylene Oxide, H. C. Vogt and P. Davis, *July, p. 312*

T

107. Temperature Dependence

Melt Fracture of Polystyrene, J. Vlachopoulos and S. Lidorikis, *January, p. 1*
Differential Thermal Analysis Using High Frequency Dielectric Heating I. Theory and Equipment, S. A. Wald and C. C. Winding, *January, p. 57*
Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*
Temperature Profiles for Polymer Melts in Tube Flow. Part II. Conduction and Shear Heating Corrections, H. T. Kim and E. A. Collins, *March, p. 83*
Cold Forming of Plastic. Part I. Draw Forming of Thermoplastic Sheets, H. L. Li, P. Koch, D. C. Prevorsek and H. J. Oswald, *March, p. 99*
Cold Forming of Plastics. Part I. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*
The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*
Stress-Strain Behavior of Styrene-Acrylonitrile/Glass Bead Composites in the Glassy Region, L. Nicolais and M. Narkis, *May, p. 194*
The Effect of Temperature on the Elastic Properties of Polymer Melts, C. D. Han, *May, p. 205*
The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*
Internal Pressure Behavior of Polymers Above and Below the Glass Temperature, E. B. Bagley and J. M. Scigliano, *July, p. 320*
Dynamic Mechanical Properties of Polyurethane Block Polymers, D. S. Huh and S. L. Cooper, *September, p. 369*
Factors Influencing the Thermal Oxidation of Polyethylene, W. L. Hawkins, M. G. Chan and G. L. Link, *September, p. 377*
Thermally Stable Photoresist Polymer, R. E. Kerwin and M. R. Goldrick, *September, p. 426*
Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*
Some Melt Flow and Mechanical Design Aspects of Large Extruders, R. T. Fenner and J. G. Williams, *November, p. 474*

108. Temperature Gradient

Differential Thermal Analysis Using High Frequency Dielectric Heating III. A Mathematical Model for Predicting Radial Temperature Gradients in the Dielectric Heating of Polymers, S. A. Wald and C. C. Winding, *January, p. 70*

109. Temperature Profile

Temperature Profiles for Polymer Melts in Tube Flow. Part II. Conduction and Shear Heating Corrections, H. T. Kim and E. A. Collins, *March, p. 83*

110. Tensile Properties

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*
Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*
Stress-Time Superposition of Creep Data for Polypropylene and Coupled Glass-Reinforced Polypropylene, L. C. Cessna, Jr., *May, p. 211*
The Mechanical Performance of Cross-Plied Composites, R. E. Lavengood and O. Ishai, *May, p. 226*
The Mechanical Properties of Textile Materials as Influenced by Complexity and Rate of Testing, F. Figucia, L. Weiner, and R. Laible, *July, p. 289*
Transverse Properties of Unidirectional Aluminum Matrix Fibrous Composites, J. M. Lin, P. E. Chen, and A. T. DiBenedetto, *July, p. 344*
Processing Conditions and Properties of Semicrystalline Polymers, I: Effect of Mechanical Properties of a Chlorinated Polyether, J. R. Collier, A. R. Cruz-Saenz, W. Gentile and N. Dinos, *November, p. 452*
The Effect of Hydrostatic Pressure on the Tensile Properties of Plastics, H. Ll. D. Pugh, E. F. Chandler, L. Holliday and J. Mann, *November, p. 463*
Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

111. Theoretical Model

Plasticating Single-Screw Extrusion Theory, C. I. Chung, *March, p. 93*
Modulus of Short Carbon and Glass Fiber Reinforced Composites, H. Brody and I. M. Ward, *March, p. 139*
A Theoretical Melting Model for Plasticating Extruders, R. C. Donovan, *May, p. 247*
A Theoretical Melting Model for a Reciprocating-Screw Injection Molding Machine, R. C. Donovan, *September, p. 361*

112. Thermal Properties

On the Solvent Stress-Cracking of Polycarbonate, G. W. Miller, S. A. D. Visser and A. S. Morecroft, *March, p. 73*
Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*
Properties of Poly(vinylidene) Fluoride, J. P. Stallings and S. G. Howell, *November, p. 507*

113. Thermodynamics

Differential Thermal Analysis Using High Frequency Dielectric Heating II. Curing Kinetics Studies, S. A. Wald and C. C. Winding, *January, p. 64*
Free Volume of Liquids and Polymers from Internal Studies, E. B. Bagley and J. M. Scigliano, *May, p. 177*
Internal Pressure Behavior of Polymers Above and Below the Glass Temperature, E. B. Bagley and J. M. Scigliano, *July, p. 320*

114. Thermomechanical Behavior

Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

115. Thermoplastics

Cold Forming of Plastics. Part I. Draw Forming of Thermoplastic Sheets, H. L. Li, P. Koch, D. C. Prevorsek and H. J. Oswald, *March, p. 99*

Cold Forming of Plastics. Part II. Draw Forming of Laminates Containing Crosslinkable Core, D. C. Prevorsek, P. Koch, H. J. Oswald and H. L. Li, *March, p. 109*

116. Thickness Reduction

Cold Rolling of Polymers. Part I. Influence of Rolling on Properties of Amorphous Polymer, L. J. Broutman and R. S. Patil, *March, p. 165*

117. Time Dependence

Application of Holographic Interference Technique to Mechanical Studies of Polymeric Solids, S. Matsuoka, V. T. Wallder and H. L. Beauchamp, *January, p. 46*

The Effect of Time and Temperature on the Mechanical Behavior of Epoxy Composites, A. E. Moehlenpah, O. Ishai and A. T. DiBenedetto, *March, p. 129*

Viscoelastic Stresses in a Composite System, R. M. Hackett, *May, p. 220*

118. Torsional Braid Analysis

Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

119. Torsional Pendulum

Advances in Instrumentation and Technique of Torsional Pendulum and Torsional Braid Analyses, J. K. Gillham and M. B. Roller, *July, p. 295*

120. 3,3,3-Trichloropropylene Oxide

The Polymer-Forming Reactions of 3,3,3-Trichloropropylene Oxide, H. C. Vogt and P. Davis, *July, p. 312*

U

121. Ultraviolet Radiation

Ultraviolet Sources for Photochemical Application, A. N. Wright, *September, p. 416*

V

122. Velocity Profile

Unstable Flow of Amorphous Polymers Through Capillaries. I. Velocity Profiles of Polymer Having Discontinuous Flow Curve, O. Bartos and J. Holomek, *July, p. 324*

123. Viscoelasticity

Viscoelastic Stresses in a Composite System, R. M. Hackett, *May, p. 220*

124. Viscometry

Characterization of Polyvinyl Chloride. Part II. The Unperturbed End to End Distance Values Obtained from a New GPC Method of Viscometry, R. K. S. Chan, *May, p. 187*

125. Viscosity

Lower Newtonian Viscosities of Polystyrene, K. K. Chee and A. Rudin, *January, p. 35*

Measurements of the Biaxial Extension Viscosity of Bulk Polymers: The Inflation of a Thin Polymer Sheet, C. D. Denson and R. J. Gallo, *March, p. 174*

Free Volume of Liquids and Polymers from Internal Pressure Studies, E. B. Bagley and J. M. Scigliano, *May, p. 177*

Correlation Between Steady State Flow Curve and Molecular Weight Distribution for Polyethylene Melts, R. N. Shroff and M. Shida, *May, p. 200*

The Influence of Molecular Weight on the Melt Rheology of Polypropylene, D. P. Thomas, *July, p. 305*

Extension Flow of Non-Newtonian Fluids—A Review, J. M. Dealy, *November, p. 433*

Some Observations on the Flow Behavior of Polyvinyl Chloride Melts, E. A. Collins and A. P. Metzger, *November, p. 446*

126. Volume

Free Volume of Liquids and Polymers from Internal Pressure Studies, E. B. Bagley and J. M. Scigliano, *May, p. 177*

AUTHORS' INDEX

Numbers refer to category headings under "Subject and Title Index;" i.e., 66 see "Orientation."
